Daniel Marulanda

Senior FullStack Developer | Engineer

Medellín, Antioquia, Colombia

Extracto

Highly experienced Full-stack Software Engineer (7+ years) with a strong focus on frontend development. I'm skilled at leading and mentoring frontend teams, driving projects from conceptualization to production, ensuring robust and scalable solutions. I have worked in several industries, including Financial, Real Estate, Consulting, Banking, Natural Resources, E-commerce, Factory Process Automation, and others.
