# Arnab Das

Senior NodeJs Engineer | Nest.JS | Kafka | Distributed Systems |  
Kubernetes | Azure | 7+ Years | Healthcare Data (FHIR/HL7) | IIT  
ISM Dhanbad  
Greater Kolkata Area

## Summary

Senior Backend Engineer with 7+ years of experience designing and operating distributed systems using Node.js and Kafka. Currently at 4Medica (Sorice Solutions), where I architect NestJS microservices processing 1M+ HL7 healthcare messages daily through Kafka streaming pipelines. I build event-driven data pipelines, handle large-scale data migrations, and solve hard production problems — concurrency, race conditions, fault tolerance. Previously at PwC India, I designed Kafka streaming systems for CRM platforms, managed cluster deployments at 99.9% uptime, and built ETL pipelines on Azure. Before that, I led backend development at Pursuit Software, migrating monolith systems to serverless and mentoring engineering teams. What I work with: → Node.js, TypeScript, NestJS, Express → Apache Kafka, KSQL, RabbitMQ, BullMQ → PostgreSQL, MongoDB, MySQL, DynamoDB → Docker, Kubernetes, Azure, AWS, GCP → FHIR, HL7, OAuth 2.0, gRPC. Open to senior backend engineering roles. Microsoft Certified Software Developer Associate.

---

## Experience

Linea  
Senior Backend Developer  
June 2026 - Present (5 months)  
Kolkata

Sorice Solutions  
Senior Node JS Developer  
November 2024 - May 2026 (1 year 7 months)  
Remote

PwC India

1 year 9 months

Senior Associate

May 2024 - November 2024 (7 months)

Kolkata, West Bengal, India

Associate Advisory

March 2023 - May 2024 (1 year 3 months)

Kolkata

## PURSUIT SOFTWARE

2 years 6 months

Senior Software Engineer

July 2022 - February 2023 (8 months)

Kolkata metropolitan area, West Bengal, India

Managing and Leading teams to meet customer requirements and developing several in house products.

Guiding juniors and colleagues on Azure Cloud mainly Serverless.

Responsible for developing several POCs for several projects.

System Engineer

September 2020 - July 2022 (1 year 11 months)

Kolkata metropolitan area, West Bengal, India

Creating H360 Back end (healthcare application) using GCP platform.

Creating back end of IXH from scratch. It is a healthcare research app which was HIPPA compliant. Responsible to make the application HIPPA FHIR compliant.

Responsible for deployment of whole back end in Azure Serverless Cloud.

Routecap (Product by ORMAE Group)

Consultant Back End Developer

May 2020 - October 2020 (6 months)

Kolkata, West Bengal, India

Creating Backend Dockerized Micro Services and Service Workers from scratch. Deploying to CICD pipeline, implementing Message Queuing, Caching.

State of the art route management software, for the Supply Chain market.

Directly responsible for the Back end Node layer architecture. It is a Dockerized, Micro Service, implementing Caching, Message Queuing Systems, Storage Systems.

The system was an end to end solution for APIs which were used by Routecap's Machine Learning Engine and the outside world.  
Tech Stack was completely OpenSource.

## Kavyant Technologies

Python Developer

August 2019 - June 2020 (11 months)

Kolkata Area, India

## KPIT

Product Engineering Services Trainee

May 2018 - April 2019 (1 year)

Pune Area, India

Python Developer Automation Tools

---

## Education

Indian Institute of Technology (Indian School of Mines), Dhanbad

M.Tech, Electronics and Communication Engineering · (2017 - 2019)

West Bengal University of Technology

Bachelor of Technology (B.Tech.), Electronics and Communications  
Engineering · (2011 - 2015)
